

Keystage Baby 1 (age 5 and under)

Length of the workshop: ten 20-minute lessons (ideally)

Stage Baby 1 Target:

Introduce children to the Chinese-speaking environment. In this early stage of learning Chinese, learning from the native speaker helps children speak Chinese without accents in the future. Children will familiarize with the tones and sounds in Chinese and immerse in Chinese nursery rhythm.

Teaching Method:

Use practical ways of learning such as flash cards, games, and nursery rhythm. Children learn through playing and games.

Feedback to parents:

Children will have assessments come the end of every term.

Feedback from parents:

Customized Questionnaires, for parents to give feedback.
